

Cold storage equipment mapping that meets MHRA demands

With ABB's expertise in cold chain mapping you can be completely confident that your temperature mapping documentation meets MHRA expectations. Cold chain mapping services are provided by a nationwide team of service engineers using ABB's temperature probes and videographic data recording equipment: products that meet the FDA 21 CFR Part 11 regulations for data integrity. ABB provides a comprehensive post survey report that can be used as proof of testing during an MHRA inspection. As an experienced supplier of temperature mapping and calibration services; with over 125 years know-how in temperature measurement; and with a wide portfolio of temperature sensing equipment you can trust ABB to help meet your MHRA needs. www.abb.com/instrumentation
