

# AC500-eCo: your PLC from ABB

## Your solution for stand-alone applications

Modern PLC solutions need to deliver the power where it is needed, when it is needed, while ensuring the project stays on schedule and within budget. It truly is time to change – for more.

### More memory

The AC500-eCo offers you more memory than any comparable system on the market today. **128 kB user memory** makes program optimization obsolete.

### More speed

Program processing time **0.1 µs/instruction** provides the performance your application needs.

### More communication

Communication is the key to success for most modern PLC solutions. As you would expect from the renowned AC500 family, the AC500-eCo comes with **onboard Ethernet**.

### More programming comfort

The AC500-eCo saves you time and money by featuring the tried and tested **CoDeSys programming** environment across the entire AC500 range.

### More flexibility

All analog inputs on CPU PM564 can be configured as digital inputs to allow for **individual customer solutions**.

### More support

Help is never more than a phone call away thanks to our exceptional network of support centers. Our hotline is available to you **24/7** technical support and advice.

# More options

**1** Wall Mounting

**2** Cover

**3** SD-Card Adapter

**4** SD-Card

**5** Adapter with COM2 + realtime clock

**6** Adapter with realtime clock

**7** Adapter with COM2

**8** Simulator TA571-SIM

**9** COM1 USB programming cable

**10** COM2 USB programming cable
