## 2. Template for Environmental Information

### 2.1 Content of hazardous materials

Declare the presence of hazardous materials in the product. Printed circuit boards are declared separately under 2.1.1 and should be excluded from the declaration in the table below.

| Material   | Example application                   | Yes | No    |
|--|---------------------------------------|-----|-------|
| Lead   | Batteries, cables                     |     | X (1) |
| Cadmium  | Batteries, switches, additive in lead |     | X     |
| Mercury  | Batteries, switches                   |     | X     |
| Beryllium  | Contact springs                       |     | X     |
| PBB, PBDE  | Additive in plastics or rubber        |     | X     |
| Brominated flame retardants excluding PBB and PBDE | Additive in plastics or rubber        | X   |       |
| HCFCs, e.g:<br>R 22, R 123, R 141b                 | Cooling media                         |     | X     |
| SF6, sulphurhexafluoride                           | Breakers                              |     | X     |
| Polyvinyl chloride, PVC                            | Cables                                |     | X     |

- (1) Small amounts of Lead may be contained as alloy element as for RoHS exemption #6 or within electronic components (several RoHS exemptions).

#### 2.1.1 Printed circuit boards

Specify the amount of printed circuit boards used in the product by declaring the total board surface:

- < 1 dm<sup>2</sup>
- 1-10 dm<sup>2</sup>
- > 10 dm<sup>2</sup>
- No printed circuit boards used in the product

Doc. no. 1SDL000186R0001

Rev. ind. 2

Date 13-04-2011

## 2.2 Recycling information

Is recycling information for the product available?

Yes Ref. Document:.....

No

If No, please specify, in the table below, the component/part/physical position where the material is present:

| Material                    | Component/part/physical position                 |
|-----------------------------|--|
| Lead                        |  |
| Cadmium                     |  |
| Mercury                     |  |
| Beryllium                   |  |
| Brominated flame retardants | Plastic parts composed of thermoplastic polymers |
| HCFCs                       |  |
| SF6, sulphurhexafluoride    |  |
| Polyvinyl chloride, PVC     | Cables   |

## 2.3 Energy use and/or losses during the operation of the product

Is energy use and/or losses during operation of the product specified in the product documentation?

Yes Ref. Document: technical catalogue

No

Not relevant

## 2.4 RoHS

The products are not in the scope of the EU Directive 2002/95/EC on Restriction of Hazardous Substances (RoHS) directive, anyway they follow the provisions of the RoHS Directive as amended by subsequent modifications and integrations.
