

Fit for use

Easy to handle – Compact Home

The MCB's Compact Home are equipped with 25 mm² cage terminals, a well proven and reliable technology.

The terminals accept not only single wires, but as well several conductors of the same size e.g. 6 x 1.5 mm² or even conductors with different cross sections e.g. 1 x 6 mm² and 1 x 2.5mm².

The cross wiring can easily be done by inserting the Compact Home busbars and then the incoming wires into one of the MCB's terminals.

The terminals accept Compact Home busbars and conductors up to 16 mm² together.

When Compact Home RCCB's or E 200- isolators are used as main incomers the Compact Home busbars perfectly fit into all possible combinations.

Compatibility with pro M compact is given in all kind of variations like:

- Insertion of 1 pro M compact MCB (e.g. K-characteristic) into an Installation with Compact Home components and Compact Home busbars.

- Also the combination of 1 Compact Home MCB with pro M compact components and pro M compact busbars is not a problem.
