

CERTIFICATE OF COMPLIANCE

CERTIFICATE NUMBER: 03112002-E93565

ISSUE DATE: March 11, 2002

Issued to:

**ABB SACE S P A
VIA BAIONI 35
24123 BERGAMO, ITALY**

Report Reference:

May 7, 1996

**This is to Certify that
representative samples of:**

Molded case circuit breakers Type ISOMAX S6H, S6L and S6N

**Have been investigated by Underwriters Laboratories Inc. ® in accordance with the Standard(s)
indicated on this Certificate.**

Standard(s) for Safety:

**UL 489, Molded-Case Circuit Breakers, Molded-Case Switches, and Circuit
Breaker Enclosures**

Additional Information:

These are two, three and four pole circuit breaker frames with noninterchangeable Type A adjustable solid state trip units or with thermomagnetic releases. The fourth pole of a four pole circuit breaker is intended for the grounded circuit conductor (Neutral). These circuit breakers with solid state trip units are intended to be used in suitable Listed enclosures min 510 high by 215 wide by 130 mm deep. When tripped the handle takes an intermediate position between "Off" and "On". Circuit breakers with solid state trip units may also have a motor operated stored energy closing mechanism. They may have adjustable instantaneous (I) and long time trip (L). They may also have adjustable ground fault trip (G). They may also have adjustable short time trip (S). Circuit breakers with dc ratings are intended to be used with poles connected in series or parallel. When a parallel connection is required, a marking is provided that indicates the required cross-section of the shorting bar.

**Only those products bearing the UL Listing Mark should be considered as being covered by UL's
Listing and Follow-Up Service.**

The UL Listing Mark generally includes four elements as follows: the name "Underwriters Laboratories Inc." in various forms and type styles, or abbreviations such as "Und. Lab. Inc.", or the symbol "UL in a circle" - ; the word "Listed"; a control number (may be alphanumeric) assigned by UL; and the product or category name (product identifier), as indicated in the appropriate UL Directory.
