A Site Survey for Web Inspection Systems - ULMA 2000, 3D, NT, NTi and Industrial^{IT} Web Imaging System

It is recommended to perform a site survey for a web inspection system, when many years have passed since the last site survey, inspection or maintenance. The site survey is performed when the paper machine is running.

1. SERVICE PROVIDES

Preparatory Actions

- Studying the maintenance history of the system
- Checking the system details
- Preparing the reporting templates
- Evaluating the needs for customer training

Actions on Site

- Inspection of the detection beam and other peripheral devices under normal operating conditions
- Checking of parameter settings and adjusting them if necessary
- Auxiliary voltages measurements
- Simple and little time-consuming repairs are performed if only possible when the paper machine is running
- Defining the system maintenance needs

Reporting

The report comprises:

- Statement about the condition of the web inspection system
- List of recommended spare parts
- Recommendations for the next inspection or maintenance
- Recommendations for possible corrective actions or future system development
- Detailed record of inspections, faults and fixed defects
- Statement about the life cycle phase of the system to ensure the spare part and support availability

2. SERVICE DOES NOT PROVIDE

- Time-consuming repair and maintenance such as cleaning of detector units, testing with a tester or replacements of CCD elements, even if it would be possible to take these measures when the paper machine is running.
- Necessary spare parts
- Assistance

3. LIABILITIES OF THE PARTIES

The Supplier is responsible for the above-mentioned preparatory measures, measures on site and for reporting at the agreed time of delivery. The supplier is responsible for offering the next maintenance or inspection. The Customer is responsible for providing the possibly required assistance. In addition, the customer is responsible for making it possible to take the above-mentioned measures uninterruptedly at the agreed time of delivery

4. OTHER TERMS AND CONDITIONS

The General Conditions of Orgalime SE 01 are applied for all deliveries and installations.
