

Flat panel monitors for ULMA / Web Imaging Solutions

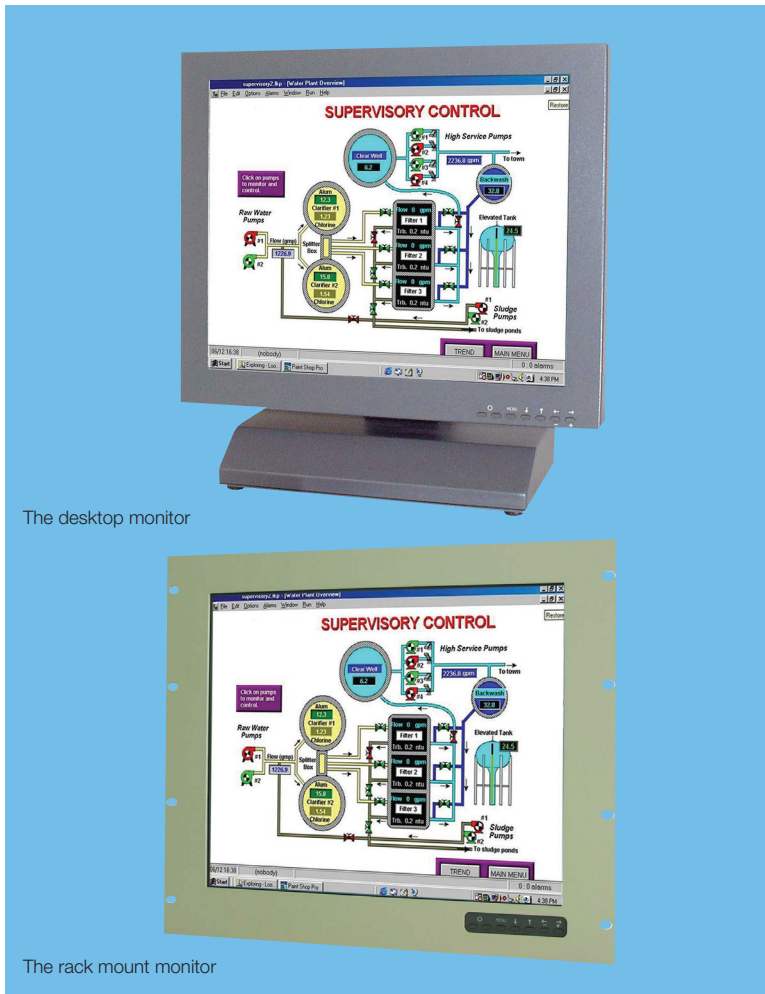

ABB has launched two flat panel monitors in replacement of the CRT monitors used in ULMA / Web Imaging Solutions. One of the monitors is a rack mount monitor and the other – a desktop monitor. Both monitors are available with 15” and 19” displays.

The Rack mount monitor kit includes:

- Mounting bracket set and accessories (bolts)

Benefits:

- Availability of the LCD monitors is guaranteed.
- LCD is technology of today.
- Compact LCD monitors save space on the control room desk.
- LCD monitors consume less energy than CRT monitors.
- LCD monitors do not generate excess heat like CRT monitors.
- LCD monitors are safe.
- LCD monitors have additional connections for different control systems.

Desktop monitors are suitable for all ULMA / Web Imaging Solutions:		
Code	Description	Type
UPG-MON1	DESKTOP MONITOR, 15	AM COLOUR TFT 15 INCH
UPG-MON2	DESKTOP MONITOR, 19	AM COLOUR TFT 19 INCH
Rack mount monitors only for ULMA 100/200, 2000 and 3D:
