

Motor Protection and Control Relion® 615 series

REM615 is the main protection for asynchronous motors and their drives in manufacturing and process industry. It is used with circuit-breaker or contactor controlled HV motors, and contactor controlled medium sized and large

LV motors. The genuine implementation of the IEC 61850 substation communication standard covers vertical and horizontal communication. REM615 is a member of ABB's Relion® protection and control product family.
