

Voltage Protection Relion® 610 series

REU610 is designed for distribution substation busbar overvoltage and undervoltage protection, feeder and power transformer overvoltage protection, and motor undervoltage protection. The plug-in design of the 610 series IEDs

facilitates the commissioning of the switchgear and enables fast and safe insertion and withdrawal of IED plug-in units. REU610 is a member of ABB's Relion® protection and control product family.
