ACS100/140/160 Frequency Converters

1. CURRENT LIFECYCLE STATUS

The ACS100/140/160 drive product is in the limited phase of the ABB Drives lifecycle plan. It is planned to remain in this phase until 2011.

2. SUPPORT AVAILABILITY

In the limited phase product manufacturing is no longer supported by development and the product service support is limited.

The following productized services are available:

- spare part service continues as long as the components are available
- off-site technical support
- recommended replacement with an active product (recycling services are available where permitted)

3. LIFECYCLE PLAN

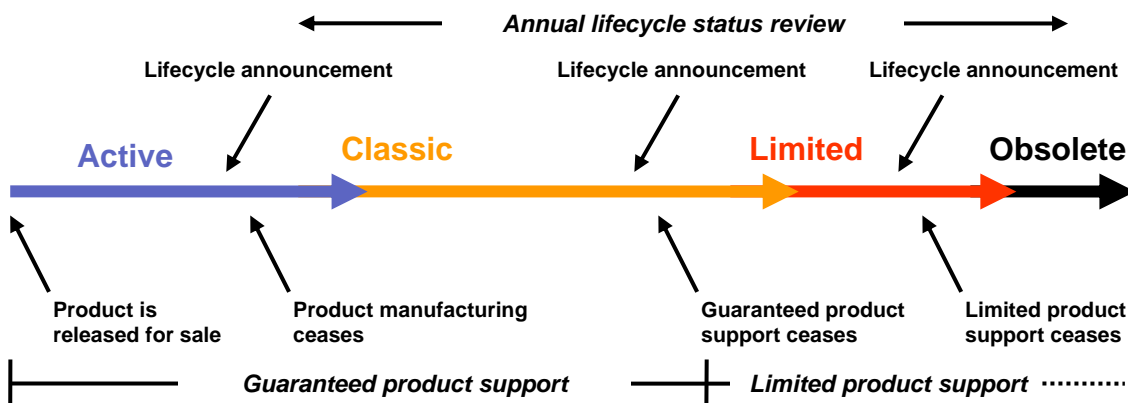

ABB's plan is to support the ACS100/140/160 drive product until the end of 2011 and even beyond, depending on the availability of components. Towards the end of the limited phase use of refurbished materials for continued support will increase.

The ACS100/140/160 drive product is planned to be transferred to the obsolete phase in 2012. In the obsolete phase the product will no longer be supported. However spare part deliveries are limited to the existing stock.

4. FURTHER INFORMATION
