

# ABB Components' Newsletter

Information to ABB Components' customers

February 1999

*Dear customer,*

*Spring seems very far away, and most of Sweden is still covered in snow. When I write this, the temperature is almost -25 °C!*

*The most important subject in this Newsletter is the new bushing Quick Shop: a selection of bushings with very short delivery times. Read about it on page 2.*

*We are very proud to be certified in accordance with ISO 14001. Read more about what this will mean for you. I also present our new representative in China.*

*Next Newsletter will be issued in March, with a focus on the whole GSA bushing concept.*

*See you then!*

*Catharina Malmberg*

## ABB Components certified in accordance with ISO 14001

September 8, 1998 ABB Components was certified in accordance with SS-EN ISO 14001 by Bureau Veritas Quality International.

The purpose of the authorization process is to identify the "significant environmental aspects", or the company's worst cases of environmental impact. The significant aspects were proved to be some of our processes. A plan of action has been developed to monitor, measure and improve these processes. The result will be an improved degree of efficiency in our processes.

To ABB Components this means an increased environmental consciousness, which will lead to processes and products with minimal environmental impact. Our customers have a guarantee that we and our products do not impact the environment more than the ISO standard and laws and decrees allow. ■

## Our new man in China

*Marketing and sales manager Olof Heyman together with Lance Zhao during his visit to ABB Components in Ludvika.*

To further strengthen our local support in the Chinese market, ABB Components has as effective from Nov. 1st 1998, appointed **Lance Zhao** as **Technical Representative China, ABB Components AB**. Lance will be based in the ABB T&D, Beijing office but he will operate all over China giving technical support to the transformer factories as well as the Power Supply Bureaus.

You can get in touch with Lance on tel. +86 10 6595-6688 Ext. 6113, fax +86 10 6595-500 or e-mail lance-honhjun.zhao@cntad.mail.abb.com. ■

**ABB**

In order to further strengthen our leading position as the number one supplier of bushings and to be able to offer our customers an improved service, we now introduce Quick Shop. As the name implies, it is our way to offer part of our product range on even shorter delivery times than before. The assortment of bushings in the Quick Shop is based on today's most frequent types, but can of course be altered gradually.

For more information, please contact your sales representative at ABB Components.

## GOB Quick Shop

The first phase of the GOB Quick Shop is to offer the customers shorter delivery times for the most common GOB bushings. The 7 best selling types are available.

The delivery times are from one week to normal delivery times. The prices depend on the delivery time: the shorter time, the higher price. We have decided to limit the number per order to 6.

### Assortment

Available from January 1, 1999

<u>Type</u>	<u>Catalogue number</u>	<u>Top housing</u>	
GOB 250/800-0	LF 123 013-K	No	
GOB 250/800-0.3	LF 123 015-K	No	
GOB 325/800-0	LF 123 025-K	No	
GOB 325/800-0.3	LF 123 027-K	No	
GOB 550/800-0.1	LF 123 061-K	No	
GOB 550/800-0.3	LF 123 190-K	Yes	
GOB 650/1250-0.15	LF 123 192-K	Yes	Available from w. 913

## GOM and GOE Quick Shop

We have also selected the most common types of GOM and GOE bushings for the Quick Shop assortment. We have decided to limit the number per order to 3.

### Assortment

All types with brown porcelain.

<u>Type</u>	<u>Delivery time</u>
GOM 1050	8 weeks
GOE 1175-850	8 weeks
GOE 1300-1150	8 weeks
GOE 1675-1300	Available from w. 921
