A few words from the managing director...

The year 2000 will soon be ended. I would like to thank all of our customers, new and old ones, who have chosen ABB Components as their supplier of bushings and tap-changers. Our goal is to be your best alternative when you compare price, on-time delivery, quality and service, and it seems that we have been successful. Our order entry has increased year by year, and this year is the best ever, since ABB Components AB became a separate entity in 1988.

I am also very happy to inform you that Alstom in Australia has nominated ABB Components as their best supplier of year 2000.

We have on-going R&D activities which mean new products will be available in the near future with higher customer value.

Thank you all for this year and I wish you a Merry Christmas and a Happy New Year! I look forward to a successful future with you as our customer!

Peder Barmé

Road show in China

The road shows have proven very useful to increase the understanding for ABB tap-changers and bushings. The latest tour went to China:

From September 13 to November 13, ABB Components managed a road show in North and East China. We visited 21 cities in 13 provinces. The show and the seminars had about 900 visitors from 42 PSBs, 17 transformer works and 10 power design institutes. ■

The ABB logo, consisting of the letters 'ABB' in a bold, red, sans-serif font.
