

Case Study; Disc Mowers and Mower Conditioners for Tractors

“It is better for the operator who does not need to take the bars and put on 144 tines, while welding them manually.”

Ulrik Bastholm, Kverneland

Client

- Kverneland Group, Denmark

Application

- Arc welding

System installed by DanRob, Denmark

Key Drivers & Benefits

- ✓ One process, compared to the earlier four, in terms of welding
- ✓ Reduced production time compared with other solutions
- ✓ Possible to do programming ahead of welding
- ✓ Better working conditions for the operators
